

# ATHLETE SPOTLIGHT

## Freshman showing his skills on the field

Deldrik Jones is a freshman on the varsity football team here at our very own Camden High School.

"Deldrik Jones has a very good work ethic and has a good home base on and off the field," Coach Belton said.

When he makes a touchdown, he feels a sense of accomplishment and how all of his work has paid off for the good.

"Even though I get frustrated when I mess up a play, I try not to let it get to me because I need to try to improve rather than get frustrated at myself for doing something wrong," Jones said.

Jones wants to further his football career during and after high school. His goals in football are to be the head running back on the Varsity Football Team one day. Then when he goes to college, he wants to either go to Florida, Ole Miss, South Carolina, or Clemson. He also wants to go to the NFL and play for the Oakland Raiders, but it was too soon to tell if he would make it that far being only a freshman.

"Most definitely he could make it to college, as long as he keeps working hard and improving every day," Belton said.
